

# LitterWorks Steps Installation Instructions

**Thank You!**

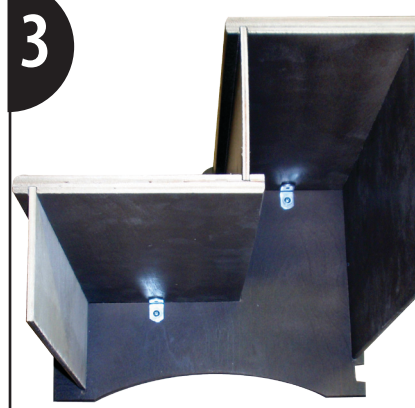

Thank you for ordering LitterWorks Steps for your LitterWorks Litter Disposal System.

1 Place both sides of the steps on a flat surface and attach 4 metal L-brackets at the pilot hole locations as shown.

2 Insert the middle (grooves on either side) and upper (grooves on 1 side) steps in their corresponding grooves

3 Slide the risers into their respective grooves (the smallest one goes on the front).

4 Place the other side on top and fit the treads and risers into their respective grooves.

5 Drive the 4 remaining screws into the underside of the treads. These are self tapping screws to there will not be any pilot holes.
